WEB101 Milestone #3

👤 Student Name: Keith Wood

✉️ Email: keithwood2024@fau.edu

🖥️ VS Code for EDU Project link: https://vscodeedu.com/s5u38fZFrGaA1si2wOOK

Questions & Shoutouts (Required)

❓ **Question #1:** What challenges did you face while implementing light and dark mode for your website?

The main challenge was making sure the color schemes switched correctly and had enough contrast for readability. Managing smooth transitions between modes in CSS and JavaScript also took some trial and error.

❓ **Question #2:** Why is it important to use form validation?

Form validation is important because it makes sure users submit correct and complete data. It helps avoid mistakes and ensures the information is useful.

📣 **Shoutouts:** Share appreciation for anyone who helped you out with this project or made your day a little better!

Shoutout to my instructor and classmates for the feedback.

Submission Checklist

👉Check off each of the features you have completed. **You will only be graded on the features you check off.**

Required features (30 pts.)

☑ Provided link correctly links to the shared VS Code for EDU project (1 point)
☑ Question #1 answered above (1 point)
☑ Question #2 answered above (1 point)

Your Project Website should include the following:

☑ A labeled button to toggle between light and dark mode (3 points)
